Divisional Health Office,  
The Poplars,  
Burnby Lane,  
Pocklington.

To: The Chairman and Members of the  
Urban District Council of Norton.

-----

Mr. Chairman, Ladies and Gentlemen,

I have the honour of presenting for your consideration my Annual Report on the health and sanitary circumstances of your District for the year 1955.

I should like to take this opportunity of thanking members of the Public Health Committee for their support during the year, and the staff of the Health and other Departments for their co-operation and assistance.

I am, Ladies and Gentlemen,

Your obedient servant,

Wm WILSON,

Medical Officer of Health.

# STATISTICS AND SOCIAL CONDITIONS OF THE AREA.

Area (in acres)	2,899.
Number of inhabited houses	1,620.
Registrar-General's estimate of population	4,830
Rateable Value	£25,998.
Sum represented by a penny rate	£101.

## VITAL STATISTICS.

Live Births	M.	F.	Total
Legitimate	30	45	75
Illegitimate	1	3	4
	<u>31</u>	<u>48</u>	<u>79</u>
Birth Rate	16.36 per 1,000		
Illegitimate Rate	5.06% of total births.		
Still Births	3.		
Rate per 1,000 of the population	0.62.		
Deaths of infants under one year	2.		
Deaths	M.	F.	Total
	32	38	70.
Death Rate per 1,000	14.49.		
Deaths from Heart Disease	M.	F.	Total
	9	10	19
Rate per 1,000 of the population	3.93.		
Deaths from Vascular Lesions of the Nervous System	7	10	17
Rate per 1,000 of the population	3.52.		
Deaths from Cancer	6	7	13
Rate per 1,000 of the population	2.69.		

Comparative Table of Birth and Death  
Rates during the Year 1955.

PREVALENCE OF, AND CONTROL OVER INFECTIOUS DISEASE.

The following cases of infectious disease have been notified during the year:-

Measles ..... 28 cases (1)  
Scarlet Fever ... 1 case (Nil)

Cases occurring in 1954 are shown in parenthesis.

Cases of infectious disease are admitted, when hospital treatment is necessary, to the Isolation Hospitals at York or Scarborough.

Tuberculosis.

Four new cases (male) of Tuberculosis were notified or came to notice during the year. There was one death from pulmonary tuberculosis.

At the end of 1955, cases on the Tuberculosis Register were as follows:

Pulmonary Males	18 cases.
Non-Pulmonary Males	4 cases.
Pulmonary Females	9 cases.
Non-Pulmonary Females	7 cases.
Total:	<u>38</u> cases.

#### Vaccination against Smallpox.

The following table shows number of persons vaccinated or re-vaccinated during the year 1955:-

Age at Date of Vaccination:-	Under 1	1 year	2 to 4	5 to 14	15 or over	Totals.
Number Vaccinated	37	-	-	-	3	40
Number Re-Vaccinated	-	-	-	-	2	2

#### Immunisation against Diphtheria.

The figures for immunisations carried out during the year are as follows:

##### Primary Immunisation.

Aged Under 5	Aged 5 - 14	Total	Reinforcing Injections
61	2	63	14

Of the 61 children under 5 years of age who are shown as having been immunised against diphtheria, all were at the same time immunised against whooping cough.

The following table shows the position as regards the total number of children who have been immunised at any one time and also as regards those who have been immunised or re-immunised during the last five years.

Estimated Population Under 15 Yrs of Age	Number of children who received Primary or re-inforcing injections within the last five years.				Number immunised more than 5 years ago	Total immunised at any one time	Percentage of child Population
	Aged Under 5	5 - 14	Total	Percentage of child Population			
1129	225	290	515	45.6	319	834	73.9

Note: Children immunised between 1951 and 1955 are presumed to be immune. The immunity of children immunised between 1941 and 1950 must be regarded as doubtful.

GENERAL PROVISION OF HEALTH SERVICES FOR THE AREA.

(a) Laboratory Facilities.

Bacteriological samples are examined at the Public Health Laboratory situated in Hull.

(b) Ambulance Service.

Ambulances stationed in Malton are available for use in the District.

(c) Nursing.

A domiciliary nursing and midwifery service is available in the District as part of the County Council's scheme under the National Health Service Act.

(d) Treatment Centres and Clinics.

These are provided by the County Council. A Child Welfare Centre is held fortnightly in the Church Hall. An Ophthalmic Clinic is held monthly. Clinics for the treatment of Venereal Disease are situated in York and Scarborough.

(e) Hospitals.

General medical and surgical cases are admitted to Hospitals at Malton, Driffield, Scarborough and York. Maternity cases go to the Westow Croft Nursing Home at Westow.

National Assistance Act, 1948.

It has not been necessary to take any action under Section 47 of this Act during the year.

SANITARY CIRCUMSTANCES OF THE AREA.

Water Supply.

The water is from a deep bore well situate in the District and is pumped to a reservoir. The water is treated by chlorination and is distributed throughout the district.

The water has been satisfactory in quality and quantity throughout the year.

Samples of water are submitted for bacteriological examination at regular intervals throughout the year.

Sewage Disposal.

A modern sewage disposal works serves the needs of the adjoining Districts of Norton and Malton.

NORTON URBAN DISTRICT COUNCIL.

ANNUAL REPORT OF THE SENIOR SANITARY INSPECTOR

For the Year 1955

Staff

Mr. R. W. G. Sinclair	---	Senior Sanitary Inspector and Surveyor. Sanitary Inspector's, Sanitary Science, Smoke, Meat and other Foods Certificates of the Royal Society of Health.
Mr. C. A. Dook	---	Meat Inspector and Additional Sanitary Inspector. 1/1/55 to 31/3/55 (Terminated Appointment) Sanitary Inspector's, Meat and other Foods Certificates of the Royal Society of Health.
Mr. J. Martin	---	Meat Inspector and Additional Sanitary Inspector. 1/8/55 (Commenced Duties). Sanitary Inspector's, Meat and other Foods Certificates of the Royal Society of Health.
Mr. B. R. Lowe	---	Pupil Sanitary Inspector.

Mr. Chairman, Ladies and Gentlemen,

I herewith present my report as Senior Sanitary Inspector for the year 1955.

The following information does not include the maintenance of Council Houses.

1. Routine Inspection Work.

Table I.

Total Number of Inspections	...	...	...	...	...	1,567
" " " Defects Found	...	...	...	...	...	138
" " " Defects Remedied	...	...	...	...	...	120

Ashbins.

Renewed	40.
---------	-----

Ashpits.

Abolished	2.
-----------	----

Food Preparing Premises.

Improved	1.
Cleaned	1.

## 2. Housing.

### New Houses Completed.

Built by private owner	4
Built by the Council	16.

### Housing Act, 1936. §.11(3).

- (a) Under this section, undertakings were accepted on behalf of six houses. One house was repaired and re-occupied during the year - and the work of converting four of the others into two houses was nearing completion by the end of the year.
- (b) Owing to the lack of an Additional Sanitary Inspector for four months, it was not possible to complete the survey of old property in the town.

## 3. Water Supplies.

- (a) The town's supply is derived from twin boreholes situated at Howe Hill, and from a practical aspect the water would appear unlimited.

The water is chlorinated by an automatic dosing machine, although the bacterial quality of the water is excellent.

From the tables supplied it will be seen that regular samples were taken throughout the district.

- (b) Water consumption continued to rise; in 1954, the consumption was 97,509,000, compared with 105,259,000 in 1955. This rise is mainly in domestic premises, as the metered supplies fell during the year.
- (c) The electric motors and automatic control continue to work well, although owing to trouble with the foot valves when on automatic it has been necessary to modify the design. It is hoped that this will solve the difficulty.
- (d) The Audible Depth Recorder has been working nearly all the year, and has proved very useful.
- (e) It will be noted from the following table that despite rising costs of materials and labour it has been possible to reduce the cost of 1,000 gallons of water by approximately 6%.

	<u>Consumption</u>	<u>Gross Cost</u>	<u>Cost per 1,000 gallons.</u>
<u>1952.</u> (last complete year of Diesel Drive)	80,977,000	£2,901	8.597d.
<u>1954</u> (first complete year of Electric Drive)	97,509,000	£2,691	6.623d.
<u>1955</u>	105,259,000	£2,723 (approx)	6.208d.

### Annual Consumption.

Norton U.D.C. population	4,840 (estimated)
Total Supplies all purposes	105,259,000.
Metered Supplies (Industrial)	33,642,000.
Domestic Supplies only	71,617,000.

### Consumption per Head per Day.

All purposes	59.58 gallons (1954 - 55.31 gallons)
Domestic purposes	40.54 gallons (1954 - 35.425 gallons).

### Bacteriological Samples.

Samples of water were taken throughout the district at weekly intervals.

Table IV.

Type of Water	No. of Samples Taken	Satisfactory	Unsatisfactory
Chlorinated	86	85	1
Untreated	2	2	0
Totals:	88	87	1

#### 4. Swimming Baths.

Owing to the excellent summer, the Council's Swimming Baths were very well patronised, some 15,528 people (including school children) paying for admittance. The water is chlorinated by means of an automatic dozing apparatus and samples are taken regularly.

<u>No. of Samples Taken</u>	<u>Satisfactory</u>	<u>Unsatisfactory</u>
11	9	2

Authority was given by the Council during the close season to carry out repairs to dressing bunks, boundary wall and fencing, including painting of all woodwork. It is also hoped to purchase a piece of land some 120 square yards situated at the western end of the baths, with a view to future extensions.

#### 5. Drainage and Sewerage.

- (a) A short length of sewer in Scarborough Road was diverted in order to relieve flooding at times of heavy rain, when the sewer surcharges.
- (b) The sewerage system continues to work satisfactorily.
- (c) One pail closet was abolished during the year.

## 6. Public Cleansing.

The public cleansing services have been carried out in a satisfactory manner throughout the year, and generally a weekly collection of refuse maintained.

Refuse was disposed of at Maudon Grove, and also in a small site at Grange Farm.

No progress was made in respect of obtaining a suitable tipping site for refuse disposal; a new site will have to be obtained during the ensuing year.

An order was placed for a new refuse collection vehicle (a Karrier Bantam), and delivery was promised for January, 1956.

## 7. Inspection and Supervision of Food.

### (a) Meat Inspection.

The following tables set out in detail, will give some indication of the work involved in meat inspection at the two Bacon Factories.

There was a marked drop in the number of pigs slaughtered from 194,387 in 1954 to 147,002 in 1955. The percentage of carcasses totally condemned for tuberculosis continues to decline as the following figures indicate.

<u>Year</u>	<u>Pigs Slaughtered</u>	<u>Carcasses Condemned for Tuberculosis</u>	<u>Percentage Condemned.</u>
1952	170,841	273	.15%
1953	174,897	140	.080%
1954	194,387	124	.064%
1955	147,002	75	.051%

If excessive condemnations are noted from any individual producer, the respective County Veterinary Officer is notified, who causes an inspection of the premises to be made.

### Disposal of Condemned Meat.

The same methods of disposal for condemned meat and offals operated this year as in the past.

At Bowers Bacon Factory there is an Iwel Labs destructor, and Yorkshire Farmers' Bacon Factory transport the condemned meat (after staining with green dye) to their Sherburn Factory for destruction.

A small proportion of condemned plucks are sold to the Welham Fish Hatcheries.

The following tables show the number of pigs which have been inspected at the two factories, and indicates the incidence of various diseases.

Table V.

<u>Yorkshire Farmers' Bacon Factory.</u>					
Total Kill 124,775.					
<u>Amounts Condemned.</u>					
Pork			Offal		
Description	No.	Wt. in lbs.	Description	No.	Wt. in lbs.
Carcases	227	32,596	Plucks	4,412	30,884

Carcases of which some part or organ was condemned	-	-	-	-	8,606	-
Percentage of the number inspected affected with disease other than tuberculosis or cysticercosis	-	-	-	-	5.99%	-
<u>Tuberculosis only</u>						
Whole Carcases condemned	-	-	-	-	75	-
Carcases of which some part or organ was condemned	-	-	-	-	12,478	-
Percentage of the number inspected infected with tuberculosis	-	-	-	-	8.5%	-

Table VII (contd)

	Cattle excluding Cows	Cows	Calves	Sheep and Lambs	Pigs	Horses
<u>Cysticercosis</u>						
Carcases of which some part or organ was condemned	-	-	-	-	-	-
Carcases submitted to treatment by refrigeration.	-	-	-	-	-	-
Generalised and totally condemned	-	-	-	-	-	-

(b) Other Food Inspection.(i) Premises where food is prepared, stored or sold.

32 visits were made to bakehouses.

115 visits were made to other food preparation premises in the town.

18 visits were made to the various food shops in the town.

(ii) Ice Cream Premises.Sampling.

Total samples taken - 5.

Results of Methylene Blue Test.

Provisional Grade I	- 4.
" " II	- 1.
" " III	- Nil.
" " IV	- Nil.

8. Milk Sampling.

Regular sampling of milk has been carried out in the town, the results being extremely satisfactory. - All methylene blue and phosphatase tests being satisfactory, and the biological examinations for Brucella Abortus and Tuberculous being negative.

Results of Tests.

Designation	Samples Taken	Methylene Blue Test		Phosphatase Test	
		Satisfactory	Unsatis- factory	Satisfactory	Unsatis- factory
Pasteurised	7	7	0	7	0
T.T.	2	2	0	-	-
Ungraded	4	4	0	-	-

## Biological Examination.

Designation	Samples Submitted	Tuberculosis		Brucella Abortus	
		Positive	Negative	Positive	Negative
Ungraded	7	0	7	0	7
T.T.	2	0	2	0	2
Pasteurised	3	0	3	0	3

The following licences were in operation during the year.

4 Main dealers licenced to sell T.T. Milk.

1 Supplementary dealer licenced to sell T.T. Milk.

4 Main dealers licenced to sell Pasteurised Milk.

1 Supplementary dealer licenced to sell Pasteurised Milk.

### 9. Rodent Control.

During the year Rodent Control included the treatment of the Council's refuse tip six times; 10% of all manholes on the sewers; and nine other premises.

### 10. Salvage.

The income from salvage during the year was as follows:-

	£	s.	d.
Scrap Metal	4.	0.	0.
Waste Paper (43 tons 16 cwt 2 qrs))	437	18.	8.

-----

I would like to thank Mr. Martin, Additional Sanitary Inspector and Meat Inspector, and Mr. B. R. Lowe, Pupil Sanitary Inspector, for their help and co-operation during the year.

I am, Sir,

Your obedient servant,

R. W. G. SINCLAIR,

Senior Sanitary Inspector.

March, 1956.
